edge•mounts

edgemounts minimalist design means they don't compete with your graphics for visual attention and give you the option to install back panels to create coloured borders to enhance the visual impact.

DISPLAY OPTIONS

without borders

Image printed on paper and displayed between a back panel and a clear acrylic front panel

Image printed on the front of a panel

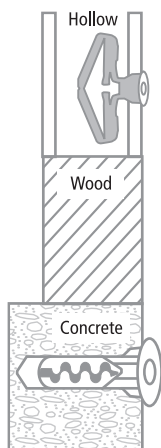

Image printed on the back of a clear acrylic panel

INSTALLATION

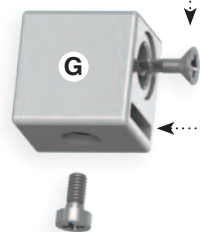

without border

Important:

Use approved wall anchors when required.

The internal back wall of **G Parts** accommodates an 8 or 9 gauge countersunk screw or bolt.

Screw to secure **L Part** into **G Part**.

BACK PANEL

Option 1. Graphic image printed on the back or front of the back panel.

GRAPHIC IMAGE

Option 2. Graphic image held between the back panel and a clear front panel.

FRONT PANEL

L Part slots into **G Part**.

The graphic image panel sits on the **L Part** and is secured against the **G Part**.
